

Price, Utah
December 10, 1961

Mr. Frank Reese, Business Manager
State Engineer's Office
Salt Lake City, Utah

Dear Frank:

Enclosed voucher and assessment sheet should bring me up to date in your office.
On the 21st of this month I am taking off for 10 days or so but will try and get my report off the press and mail you a copy before I leave; my report will have a copy of this Assessment Sheet.

Tell Clarence I would like to have 25 copies of The Natural Flow Rights that I asked him to get for me.

Merry Christmas and a Happy New year to every one in the State Engineer's Office.

Very truly yours,

Harvey Thomas
